

18 March 1983

Tom Cormack
Executive Secretary

1. Ken and [] held an exploratory discussion with [] about the study he is doing for the DCI on Agency relations with elements of the Department of Defense. We are now preparing a list of histories pertinent to this project, to be submitted via Briggs for DDO access approval for []

2. A loan copy of the history of the Allen Dulles tenure was sent to [] of the Senior Review Panel, who had known Dulles. Other tentative requests -- history support for [] at CSI and for the EIC members -- are on hold. After closing out the request from [] about two committees involved with the study of radio jamming, [] found a reference to an NSC document outlining responsibilities in this field and passed along the document number to []

3. Bob has held additional interviews with Walter Pfortzheimer and Lawrence Houston, and he will interview [] today. The main topic of discussion in these interviews is the John Paton Davies case. Bob has completed a draft of his proposed Studies in Intelligence article on this topic. *Cancelled*

4. Bob's course at Wang was rescheduled; he will be taking it on March 21-22. Ken closed out the feeler to Bob from [] the graduate student working on Agency relations with Congress, with a telephone conversation with [] indicating that Bob's work on that topic had been cancelled.

5. [] has scheduled an interview with John Bross for today on how operations in Germany in the early years shaped Agency doctrine and field/headquarters relations.

6. [] began full-time work with the History Staff on March 14. Her first major task was to get the DCI and DDCI handbook retyped and ready for review. Dick Lehman has returned and is working his agreed schedule.
